Dear Gerard

On behalf of the Executive and the members of Golf Management Victoria I would like to thank you for being a presenter at our recent conference in Barnbougle, Tasmania.

Your presentation was extremely informative and very beneficial to all who attended. We have received very positive feedback from our members and believe your sessions contributed to this conference being the best we have had.

Your presentation has been made available on our members website which I am sure will be referred to and used by not just the members who attended the conference but many more.

Once again thank you, we appreciate your time given to support the Association.

Yours sincerely
